

LOWER SECONDARY MODULAR SCIENCE

Physics modules

- Exploring diversity of matter by its physical properties
- Effects of Heat and its transmission
- Energy and Work Done
- Electricity
- Light

Chemistry modules

- Particulate Nature of Matter
- Elements, Compounds and Mixtures
- Separation Techniques
- Atoms, Molecules, Ions
- Writing Chemical Formulae
- Chemical Changes and Word Equations
- Acids and Alkalis

Biology modules

- Model of Cells: The Basic Units of Life
- Transport in Living Things
- Ecology
- Photosynthesis
- Digestion in Humans
- Reproduction System in Humans
